## FINANCIAL AND COMMERCIAL.

WEDNESDAY, MATCH 30-6 P.M. The monotonous dulness of the Stock Exchange has given place to an active and in a degree excited speculative campaign in favor of higher prices. Tae signal for this movement seems to be the prospective defeat of the Funding bill, the passage of which in the upper house of Congress started the sharp downward movement in gold and the resulting decline in stocks and governments. Now, however, the assurance is given from Washington that the measure has been rendered so odious to the members of the Ways and Means Committee of the lower house that it will receive unfavorable action at

GOLD STRONG AND ACTIVE The effect of this intelligence led to a very active market for gold, the price of which ran up to 112%. and closed firm thereat. The clearances to-morrow will doubtless range as high as sixty millions as the result of to-day's transactions. The upward move-ment was compated, however, by the mactivity, is not beaviness, of foreign exchange, which induced free sales on speculative account, the operators for a decline basing their action upon the increase of half a million in the exports of the week and the importation by steamer to-day of about \$500,000 specie shipped here in france when exchange was ruling ut a quarter per cent below present quotations. It is a question whether these sales, based, as they were, upon such normal influences for a decline, would not have led to a sharp decline in gold, had not the news from Washington so encouraged the buying movement on the part of the "buils." As will be seen further on, the expected defeat of the Funding old led to a sharp advance in governments despite the more feeble response in gold. The

The operations of the Gold Exchange Bank were as 

brought 4,000,000 francs specie.

It was a field day in the stock market, where the "bears" met with terrible slaughter at the hands of the jubilant "buils," who, after a long and weary siege, came out of their strongholds and made a most brilliant and successful assault upon their opponents. They were all the more confident of victory for the reason that the market contained that essential element of success-a heavy "short" interest. The long mactivity in the market had prompted the "bears" to sell from day to day, hopes being fed with the expectation that heaviness and dulness so long pro-tracted would, as they ordinarily do, lead to a break. The danger of speculative sales in an easy money market has, however, been sadly exempified. With the rate on call loans ranging from three to six per cent the "buils" have been quietly adding to the stocks which they purchased earlier in the spring and nursing a widespread "short" interest. Indeed, it is a question whether in some instances the "bears" have not sold them more stock than is actually within reach in Wall street. The movement to-day was especially marked in Pacific Mail, Northwestern and Lake Shore, and to a less extent in the Vanderbilt securities, St. Paul and Rock Island. The speculation led off with Pacific Mail, and was followed by a sharp advance in Northwestern and Lake Shore, the move-ment late in the day suddenly embracing New York Central. The ngures of the anticipated report of the Pacific Mail Steamship Company were subjected to a sharp scrutiny, and the general verdict was in favor of their modest and reliable character. The "short interest in this stock was the basis of a sharp ac vance in the price. It is surmised that nine-tenth of the sales of Pacific Mail below 35 were purely spec mistive, the "bears" selling to each other and deal ing in stock which they were not the veritable pos sessors of, thereby violating the advice of tha shrewd old operator, Commodore Vanderbilt-"not to sell what you haven't got, somey."
The upward turn in Lake Shore hinged upon the announcement that at the meeting of the director to-day it was decided to close the books on Monday next for the annual election in May, while the suditor's books showed net earnings of ten per cen during the past year, or two per cent more than the nividend. Rock Island rose to 120% upon the reve lation that, though only 31/2 per cent was declared as the dividend at the meeting of the directors of Saturday last, the treasurer's report showed earn

### THE COAL TRADE.

The Monthly Sale of Scranton Coal Yesterday-Unaccountable Increase in the Price tor All Kinds-"What Can the Matter

The regular monthly sale of Scranton coal yesterday was very largely attended, and the bidding for all descriptions was exceedingly spirited. To the surprise of everybody who was not in the secrets of the various cliques and rings by which the coal market is at certain periods throttled and made to move just as they see fit, the price for all kinds advanced considerably above that of last month's sale. What caused this was a mystery to the unsophisticated, and when, during the sale, it became evident to outsiders that a bear movement

# Eighty thousand tons were sold, and it will be seen that the average increase in the price is about forty-five cents. Who can tell why this should be thusly? MISCELLANEOUS.
